2. Rapporter

2.1. Studentkåren rapporterar

In both cities we have reports of students drinking too much. Faddrar and generals are the ones drinking more than rookies, making them feel unsafe. Rookie periods are mostly for the rookies to feel welcomed and safe. This is simply a reminder to the members attending today's meeting. We have a support system to help associations to move on with banning members if needed. We are trying to build a culture that even after the rookie period to not mock each other and other associations for not drinking at events or pushing other associations to drink.

Second point, Eskilstuna Kuriren came by the office and had an interview that was last minute. Arriving at the J3 house last minute was hectic as the student house was a huge mess leading to the reporters to take pictures of the mess that could potentially hurt the Student Union reputation.

A question was asked if this was a spontaneous or planned meeting with the reporter? It was communicated the day before the interview whether the house was cleaned, and no response was given. A formal request to remove the alcohol at the very least after parties was requested. Also, a request from Sexet was made in order to improve communication to ensure that they are notified ahead of time, MDSU accepted.

House development issue, MDSU has expressed interest in installing internet network and are requesting to have a sitting with Sexet to accomplish that goal. This will allow for a bigger interest that students can come here and having an environment where they can hang out and study. Comments were made on the trash collected and the trash right by the entrance. MDSU and Sexet will contact Vafab to find a solution to the trash.

A question to Kåren: Ovve were sold by MDSU and there was not enough communication to the association, not allowing the associations to spread the word on selling the Ovves. A formal request to have this communicated better, preferably on Teams was made. Another request is to have the size and the number of Ovves to be present here in J3 so people are aware of the logistics.

A formal apology was made by MDSU for cancelling open mic. A question of what the decided date was asked by the present associations to look into when to hold the postponed event. 9th of October is a date set for a student cruise, a possibility of having the open mic on the cruise together can be possible but MDSU will get back with the meeting.

A question was asked regarding Fadder education, MDSU will have to contact MDU and MDSU will get back with an answer.

Lastly, the associations really appreciated the Welcoming and IntroMässan saying that it went really well and wish to continue this energy for the coming welcomings in the future.

2.2. (ELSA) rapporter

2.3. (Sexmästeriet) rapporter

Sexet is formally asking other present associations to help out with the Sexet mugs. Ovve vinningar, Sexet have not decided on a date as they are not aware of when MDSU will be selling the Ovves. Once every association has received Ovves, a date will be set. A request for it to be before the cruise would be nice or during the same week. However, it is still unclear to date.

2.4. (ALF) rapporter

A mail was sent to MDSU regarding a problem with the discrimination towards the handicapped from one of the engineer generals in MI.

2.5. (BEWARE) rapporter

Have been helping other associations and talking into looking more at the Kåravtal. This information will come mostly from the Chairman of Beware and a request from MDSU to communicate this agreement was expressed and accepted by attended BEWARE member.

2.6. (Esekon) rapporter

2.7. (iDesign) rapporter

Rookie period went well and have nothing more to report.

2.8. (Innovare) rapporter

2.9. (MI) rapporter

2.10. (Morsan) rapporter

The rookie period went well. The only thing they have is planning to work with VIPs on the Ovve vinningar.

2.11. (VIPS) rapporter

Not so much to report right now. Working with morsan and the Ovve vinningar, working on getting all the rookies to get their ovves.
