- The Welcoming Feedback - MDU

Representatives from the project group for The Welcoming Johanna and Jenny inform that the event will have a similar layout as last year. This fall The Welcoming takes place in Västerås on 29 August during the afternoon. The Welcoming is for all students, both new and current.

Food: Many complaints about the food and the food queues. MDU already knows that they can make information and potential food tickets much clearer to the students. The project group asks if it is better that we skip food since there is a lot of money and work that goes into this. Despite this, everyone agreed that they thought the food was important and almost more important than DJs and other things that cost money.

Signs: Those LFs who do not have a working sign should email jenny.persson@mdu.se and we will

supplement where needed.

Artist: The project group asked for suggestions for artists. Veronica Maggio and Benjamin Ingrosso came up as suggestions. But some thought that they would rather see a cover band as entertainment. Preferably local talents or students.

DJ: Requested students who were DJs instead of external.

Student panel: If you are interested in being a sounding board for The Welcoming and other issues, you should email jenny.persson@mdu.se You put in the time that suits you, no demands.

- Student survey – Study situation and well being - MDU

The group "Hållbar studietid" på MDU/Studentcentrum – is working with a student survey that will look into 3 areas:

Work-/study environment

Health/wellbeing

Study situation

The survey consists of about 20 main questions with some sub-questions. It is important for us that as many students as possible answer the survey, we have a minimum goal of 1000 respondents, (which would be a record at MDU in recent years) but the hope is 3000 respondents. Anything beyond is the dream. We know that it is a challenge to get students to answer surveys, and we see this trend in course evaluations, for example. We know that we will not be able to reach these numbers ourselves and we therefore wish for you to help us reach our goals. What kind of help? We have a wish that every board member of each association will respond to this survey. We also have a wish that all students who have an SR assignment answer the survey.

Through various initiatives and activities:

At the launch, we will offer coffee, have the popcorn machine out and stand together with the student union and meet students during the day.

The Student Union has agreed to make a targeted investment by challenging students to receive x number of responses within a time window. If we reach the number, Shervin, Patrick and Faisal will take a cold bath in Björnön/Löga, which we will film and publish. We will investigate whether it is possible to Live – stream.

Requests for the Union Associations' help through activities:

Investigate whether you could get sponsorship to stand at the link and hand out, for example, coffee or similar, to get your students/members to respond

You suggested a competition between associations, think about what it could look like. MDU is investigating possible price.

Would you like to contribute with some Spex?

The idea is to launch the survey in the first week of April. The purpose of the survey is to investigate which areas MDU can improve through different initiatives and resources for the students, this can also apply to different types of activities that benefit both study success but also student life. Submit your thoughts no later than next week on Friday. You can email these to: amanda.flores@mdu.se

- FAME Event Group
